Shipment Information:

Homeland Security Regulations require that seal integrity must be maintained throughout transit.

Container _____ was received at _____ on ___/___/___ with seal number(s) _____. The shipment documents/instructions received on ___/___/___ reflect seal number(s) _____.

If the existing seal(s) on the container are not the correct seal(s), then in order to comply with Homeland Security Regulations, the existing seal(s) must be removed in the presence of authorized personnel, the doors opened, and the interior/cargo photographed, the container doors resealed, and replacement seal(s) documented accordingly.

To comply with Homeland Security Regulations, we ask that you complete the Seal Verification form below with the correct seal numbers and return it to your Tropical Shipping Trade Lane Specialist by FAX.
